

Welcome Message from President Martinez

Welcome to the official website of Ascension Parish Government. On January 7, 2008, I was again honored with the privilege of serving you. I enter into this endeavor with great passion and optimism. I Love Ascension Parish! Our way of life, our sense of family and community, it is the place we call home. I will work tirelessly to ensure our way of life is preserved. Be assured I will represent you at all times with the utmost pride and dignity. As your Parish President, my goal is to build a Parish Government where communication, cooperation and transparency are the key elements of our success. I believe the best results for the residents of Ascension will be achieved by a government that listens and responds with a "Spirit of Cooperation." My priority each day is to facilitate that spirit. Your confidence in the abilities of the Parish Administration and Council is a vital part of progress. We want to renew this confidence and earn your respect, through action. As Ascension Parish continues to grow, we will face new challenges. Change is inevitable, but I believe we are now poised to take advantage of every opportunity change provides.
