### **Ascension President Cointment Diagnosed with COVID-19**

Ascension Parish Government is announcing that President Clint Cointment has been diagnosed with COVID-19. His symptoms are mild, and he is fully engaged with Parish business while recovering at home.

“Although it is possible that I may have contracted this from anyone at any of the multiple events that I attended, I am especially concerned about the health of everyone who attended the Sock Hop,” said President Cointment. “I urge anyone who may be feeling ill to take it seriously and get tested.”

Free vaccines are available at the Ascension Parish Health Unit and at pharmacies throughout the Parish.
