Parish Officials Request Flood Water Information

Ascension Parish Government is asking residents and business owners to report any incidents of storm water entering homes and businesses after the recent heavy rains.

The information will be compiled and catalogued by the Floodplain Management and Storm Water departments to keep accurate records in the Parish.

The request is for information on homes and businesses only, and not for sheds, pole barns, and other out structures.

All residents and business owners who have had flooding issues are asked to call the Citizens Service Center at 225-450-1200. The technician fielding the call will use the work order system to register the call and document the results.

This proactive measure helps the Parish when reporting records of any and all high-water events to State and Federal agencies.
