## **1. GENERAL INFORMATION**

### **1.1 Purpose**

The Parish of Ascension, Louisiana is soliciting requests for qualifications from professional engineering consultants to provide engineering review services related to the review and approval of development projects submitted to the Parish utilizing the Parish Unified Land Development Code which includes the Parish Subdivision Code, Subdivision Ordinance, Zoning Code, Traffic Study Policy, and Drainage Ordinance including the use of fill as a construction method, additionally, Impact Fees (drainage, recreation and traffic) for the unincorporated portions of the Parish of Ascension. As outlined in the Scope of services below (Section 1.3), the Parish of Ascension hereby requests qualifications from experienced and qualified Firms to provide the needed services.

### **1.2 Background**

#### **Project Area**

Situated at the junction of the Mississippi River and Bayou Lafourche, Ascension Parish embodies the unique rich culture of South Louisiana. The Parish's geography, approximately 300 square miles, has been claimed by several different nations and peoples and is situated at the crux of an unrivaled and unprecedented mixing of populations and cultures since the Spanish first came into contact with the Houma, Bayougoula, and Tchitimacha tribes in the 16 Century. The residents still closely identify with the French Acadian/Cajun way of life, hosting one of the world's most prominent jambalaya festivals and serving as home to the nation's most celebrated Greek Revival plantation along Louisiana's historic River Road, Houmas House. The Mississippi River bisects the Parish into a west bank area that accounts for approximately 25% of the land area of the Parish and an east bank that accounts for the remaining 75% of the Parish. Parish citizens place high value on Ascension's natural beauty, rural character and traditional farming culture, unique environmental characteristics and the recreational opportunities that support and result from these attributes.

The historic City of Donaldsonville on the west bank was founded in 1806 and at one time was the capital of Louisiana and is the Parish seat. The other two of the Parish's incorporated municipalities are located on the east bank and include the City of Gonzales and Town of Sorrento. The Parish and City of Gonzales have recently approved new Comprehensive Master Plans and the Parish approved a Master Transportation Plan in 2020.

The development challenges facing Ascension Parish are related to the Parish's rapid growth resulting from its unique location. Geographically, Ascension Parish is a desirable area for development due to its location between Baton Rouge and New Orleans, 30 miles southeast of Baton Rouge and 50 miles northwest of New Orleans. Development pressures stem from the growth of commuter populations to both of these nearby cities, the strength of the Ascension public school system and the growth of Ascension's primary industry—chemical processing manufacturing.

According to the US Census Bureau, between April 1, 2000 to July 1, 2016, Ascension Parish experienced the highest population growth in the state. The Bureau estimates a population growth of 59% during this period. Such rapid growth has resulted in a Parish-wide population over 121,000 and growing. The Parish has become a bedroom community for individuals who work and shop in East Baton Rouge Parish to the north. New subdivision developments have created a strain on the Parish budget by requiring the Parish to meet demands in residential and commercial development rather than guiding growth and development.

## **Parish Government**

Ascension Parish is a Home Rule, Council-President form of government. The form of government efficiently combines all executive, legislative, and judicial functions for the Parish.

### **Engineering Review Agency Services Requirements**

The Parish is soliciting the services of an engineering firm to assist in the review and approval of development plans submitted to the Parish for approval at the staff level, the planning commission and the Parish Council.

## **1.3 Scope of Services**

The Engineering Review Agency will perform the duties ordinarily associated with an in-house engineering department related to the subdivision and development of property in the Parish. The agency will have complete knowledge of the Parish Unified Land Development Code and its applicability to subdividing property and developing the built environment of Ascension Parish.

### **Subdivision and Development Plan Review**

6. Review and verify code and specification compliance on Subdivision Construction Plans.

### **Construction Process, Inspection and Monitoring**

The Department of Public Works shall immediately notify the Engineer Review Agency of any problems it finds.
8. Upon request, provide final inspection on commercial projects to ensure compliance with the approved construction drawings.
9. Upon request, approve the testing laboratory selected by the developer/contractor of a subdivision, specify the testing that needs to be done, and review the testing laboratory reports.

### **Meeting Attendance**

10. Attend meetings related to the subdivision of property including, pre-application and pre-

construction meetings with Parish staff and applicant(s).
